DETATES SOURCE

Ad Man Out

I just wanted to let you know that you will not need commercials for this new powerhouse the Nintendo 64. It practically sells itself. what with its way cool graphics and smooth game play. After looking at the May issue's "Coming Next Issue" page, I couldn't wait to get the June issue. I was so excited to be able to catch a glimpse of the future. When I got the issue. I was practically jumping for joy. Good job Nintendo, you've made a winner. Nintendo 64 rules!!!!!

Chris Aberg via America Online

Heu Wise Guus

Liust received Volume 85 and was quite disappointed to see 31 whole pages on N64 games, I'd like to know about the N64, but 31 pages?! I'd rather have full coverage of a Super NES game. I was also thinking that if you made your responses in Player's Pulse more sarcastic, it would make reading this section more interesting.

> Geo Monleon via the Internet

Geo, we were disappointed about the 31 pages as well, We would have preferred to use all 108 pages for N64! Read on.

RPG Overload

It seems to me that your magazine has begun to cater to RPG players. Maybe this is because there are a lot of RPGs being made. I don't know. I would be happy to read page after page of N64 news and look through picture after picture of N64 screen shots.

> Andrew Beer Fort Wayne, Indiana

next month! Hurry Vo and Wait

I just got my Nintendo Power and loved the N64 coverage. The games look great. I can't wait to get an N64. Meanwhile, my friend has a Sony PlayStation that I play on weekends. It is O.K., but doesn't come close to being as good as the N64. The games are good, but they take forever to load! I hate loading! I calculated the loading time of one game. The average play time was one hour, and there was seven minutes of loading throughout. That's 12 percent of the time spent loading. I am glad the N64 will not have loading and will not be CD-based

> Brian Woerndle St. Louis, Missouri

You Look Mahvelous_Dot!

In my Volume 83 I came across a letter from Ionathan Ratcliffe, who wrote concerning the contents of Player's Pulse and how it all says the same thing: how great your mag is. Now don't get me wrong, I think it is great, but I get kind of bored reading letter after letter of "Love your magazine!" and "I love this and this and this!" If people have something interesting to say, then print it! Remember, selfpraise is a good thing, but don't overdo it.

Act Attack

After checking out the special N64 section in Volume 84, lots of Power readers got the urge to

sound off about the game system of the future. Here are just a few. Now it's your turn to write with your opinions! Remember, the N64 debuts

> I have been a Nintendo Power subscriber for a long time and I have to say that I really like your magazine. Especially the Player's Pulse. Enic Center and Classified Information There is one thing, though, that I do have a problem with. Now, I understand that you can't put everyone's Envelope Art in Player's Pulse, and you do worthwhile things with the art that is not printed. But, is Naomi Chiba's name all over Player's Pulse like the bubonic plague or is it just me? I think I'd need an extra set of hands just to count on my fingers the number of times I've seen Naomi's art in your mag. Does Naomi pay you to put her art in Player's Pulse? Is she related to some big-shot staff member? One more thing: put those manila folders pages back in Classified Information where they belong!

> > Mike Wilsey Venice, Florida

Naomi is a terrific artist, and her work speaks for itself. No one related to the NP staff is that talented as far as we know

Brendan Aiken British Columbia Enveloge Art Page 6. top to bottom

Vintendo?

Women in Video Games, Pt. III

Back in Player's Pulse for Volume 77, Sarah LaBrie complained about "video games always showing girls in dresses with big pink bows in their hair." This touched off a flood of mail. both pro and con. Here are two more examples.

Sarah LaBrie!! Sarah LaBrie!! She really is dead wrong. A good example of just how wrong is Samus Aran from Super Metroid: Samus doesn't seem too weak. In Super Street Fighter II. Cammy's strength may surprise you. In Mortal Kombat II. Kitana and Mileena seem to be contenders.

Allistair Fraser Halifax, Nova Scotia

Ladmire that gal Sarah LaBrie. You ask me why. amigos? Because she's defending what's right. It would be better if they would put more gals in fighting games and other kinds of games. They have the right. It's just that you. guys are "oozing with too much machismo," Where I come from, a guy treats ladies with respect,

> D.I. Nike Caguas, Puerto Rico

Two_Wheeled Tussle Hey Nintendo Power!

Here's an idea I have for an Arena challenge: What is the highest score you can get in the bike race in Chrono Trigger? I figure that this challenge would be good because it is tough and my personal best score is around 1050.

Jeffrey Schroeder via America Online

Hey leff-Matthew Werner. our grand prize winner who went to E3, came up with the same bright idea. As a result, you can join the Chrono Trigger bike race in this month's Arena. Riders. start your pedals!

Shrink Rao

The maps that you make for video game stages are too small. Sometimes Loan hardly make out the things that you are trying to show me!

Ionathan Tso Great Neck, New York

If the maps look small. that's only because we're trying to cram more tins. tactics and items into every article. But thanks for the input, Ionathan, We'll keep it in mind.

Rehind the Scenes

While I think that it is good to preview new Nintendo systems and have occasional articles on game designers, game making, and on-line services. I also believe that by putting things of this nature in a game review magazine, you are beginning to get away from the original focus on Nintendo Power, Might I suggest a separate publication for behind-the-scenes aspects of Nintendo? In short. I think that Nintendo Power should concentrate more on game-playing info than on anything else.

> lason Boone Rocky Mount, N.C.

Loved H.L.

I just want to say what an AWESOME game Super Mario RPG is!!! I don't even like RPGs and I didn't even want to play the game, but after seeing what it was like and trying it out. I loved it! I loved the game so much I went out and bought it the next day! Anyway, just want to say thanks for the terrific game!

Shaun Ali via the Internet But 10ho 10hil Save the

Princess?

Mario for President!!!!!

John Bednarz Shavertown, Pennsylvania

63—Excitement!

Matthew Werner of Rocknort, Texas, grabbed some serious gaming glory when he jetted to the Electronic Entertainment Expo in L.A. The Volume 80 Grand Prize Winner had such a great time that he passed up a trip to Disneyland in favor of an extra day at the show, where Pilotwings 64 flew him straight to seventh heaven. A visit to Planet Hollywood and a drive through Beverly Hills (like in Cruis'n USA, but slower) rounded out a once-ina-lifetime experience!

Classic

I'll start by saving that Epic Center rules! The only thing I would change about it is to make the Strategy section a Classic section. You could do reviews of classic RPGs like the Dragon Warrior series, Final Fantasy series, Legend of Zelda series, or any other classic RPGs for the NES. Game Boy or Super NES, I hope you can add this section to your magazine.

> Kelly Osadchuk Thunder Bay, Ontario

Babu Get Back

What's with Super Mario World 2?? I was really bummed out when I realized that you don't even get to play as Mario. I think it looks lame having Yoshi running around with Baby Mario on his back. I would be embarrassed to buy the game.

> lared Budd via the Internet

Looks can be deceiving. Have you actually played it?

YOU'LL FLIP!

I'm here to show you how to play this game. I've ant lots to show.

nau attention

Trust us whoever coined the phrase "maximum replay

value" must have had Tetris Attack in mind! Your goal is to eliminate panels by lining up three or more. Do this by sliding panels left or right or by flipping neighboring panels. Seven different play

modes, 100 different speeds and three difficulty levels will challenge everyone from rank novices to nimble-fingered pros.

COSTO (COMPO) COMPO

Tetris Attack has only five basic panels, plus the ! panel in Vs. mode. But those five different panels make for endlessly

challenging game play. Rows of new panels are constantly erupting from the bottom of the screen. If they reach the top, it's curtains for you! Gain time and win points by clearing piles of panels. A buddy from Super

Yoshi's Island is always on hand to cheer you on!

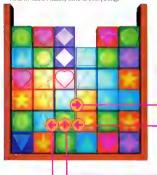

Clearing a row of three panels will open up some space, but will scarcely slow a speedily scrolling screen. One way to halt the action for a few secands is to create combos. which clear at least four panels at once. These combos can take many forms, including a row of four or five identical ponels, parallel rows of three identical panels, and right-ongle formations of five or more panels.

COMBOS

It takes fast finger-work and even faster thinking to pulverize plenty of panels at once. You can even make a whopping 10-panel combo by simultaneously making two combos of five panels apiecel Below is a good example of how to make a mega-combo. Remember: the bigger the combo, the more time you'll gain. And in Tetris Attack, time is everything!

FINALLY, FLIP TUIS TRIANGLE RIGHT FOR A MEGA-COMBO!

FIRST, FLIP THE STAR LEFT

SECOND, FLIP THE STAR LEFT AGAIN. YOU'LL CLEAR A COMBO OF FOUR STARS

Nintendo Power Attention: Tetris Attack Challenge P.O. Box 97086 Redmond, WA 97073-9786

Meet Oscar, a cute little critter with dreams of achieving star status on the Super NES. Created by those game titans at Titus, Oscar combines cool elements from already-popular games and has the potential to win over adventure-action fans with its simple-to-master controls, fast and furious game play, and 12 stages of filmic fun. A one-player affair, Oscar is certainly an amusing mix of side-scrolling thrills and that wacky Titus sense of humor that players have come to love.

THE STAGE IS SET

Movie-mad Oscar has decided to go see all four films that a local multiplex has to offer. But instead of simply watching the show from the comfort of his seat, Oscar leaps into the silver screen and lands the leading role! Each film has three scenes which Oscar must complete by collecting a

series of acting awards before being able to move on to a new movie. It sounds simple, but being a matinee idol is hard work. Not only are the sets hazardous, but Oscar is expected to perform all his own stunts! To remain a star, he'll need to knock off the other actors, who are jealous of his newfound fame, and find bonus items that will keep him well-stocked with extra lives.

Scattered throughout the sets. Oscar can find film canisters containing bonus points or powerful props. While some items are simply strange, others offer Oscar a helping hand or can be cashed in for extra lives at the end of the stage. You can open the cans with the slightest touch, but you must nab the bonuses before they slip away.

enough to find it, you can use the yo-

yo to bop baddies or to break down barriers that are keeping you from other bonuses. With this toy in hand, the game will seem a whole lot simpler!

Much more of a hinderance than a help, this bottle of sickly colored potion should be avoided at all costs. Since you can't see Oscar, you must sit there waiting for the stuff to wear off!

very often, but your best bet is to look for it in hard-toreach locations. With a new set of flappers, you'll be able to soar over enemies and obstacles while safely nabbing bonuses from above. You'll also find wings useful for speeding quickly around a stage and spotting Oscar awards from the air.

A truly bizarre but completely harmless bonus, this prop imbues foreground objects with strangely familiar shades of pale green! The effect

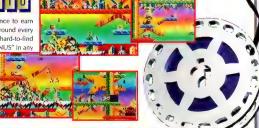

Because Oscar can only have a maximum of three hearts, and he loses one every time an enemy hits him, these extra pumpers are vital for keeping his film career on track. Note where you find these bonuses so that you can always locate them later when Oscar's health begins to wane.

For an added plot twist and a chance to earn some extra lives, you should look around every level for letters that are hiding in hard-to-find film cannisters. If you can spell "BONUS" in any

stage, you'll get to play an added round where big rewards are waiting. These bonus stages are timed, so pick up as many prizes and points as you can and then make a mad dash to the exit door before the clock winds down.

WHATE'S SHOWING

Set back in the days of dinosaurs, this film features loads of prehistoric creatures that are hoping to take a bite out of our buddy. Oscar! In this lush and tropical land, be sure that Oscar

looks out for high-flying pterodactyls, terrifying tyrannosaurs, and bouncing baby dinosaurs on wheels! Avoid the dangers of extinction by saving this Jurassic blockbuster The cinema has four screens, each showing a film with a different theme. You can play them in any order, but you must finish a film before you'll be allowed to pick another. First-timers should opt for the fairly simple

Nothing is more frightening than a well-made monster flick, and for Oscar, being the film's star is every bit as scary! Ghouls, ghosts, and a whole host of other assorted creepies seem to be conspiring to put our favorite little

actor out of commission. Watch for Frankensteins, broom-riding witches, and all sorts of mean spirits that are trying to upstage our

DEEP-SEA DANGER

Many bonuses and Oscar statues rest beneath the waves. so you'd better count on getting your feet wet. Luckily, a yo-yo works wonders underwater, allowing Oscar to

defeat dangerous fish and break down unpassable barriers.

DINO MIGHT

Defeating this red tyrannosaurus rex can be dangerous if you don't stay high above his head. Because this mighty dino has such a nasty bite, try to jump on his noggin three times in a row before

landing on solid ground.

Throughout this spooky stage, you'd better stay on your toes to avoid some nasty surprises. Sharp spikes tend to pop up from the ground when you least expect them, so

Plenty of hidden platforms throughout this stage are useful for reaching bonuses and staying high above earthbound baddies. But beware! Flying foes are still a cause for concern

When Oscar lands the lead in a feature-length cartoon, he figures his part will be a piece of cake. Boy, is he in for a pie in the face! Ferocious bulldogs will try to bite him,

mean little mushrooms will add to his misery, and even dill pickles are going to dish out some damage! Who would have thought that toons could be so much trouble?

HIDDen overhead

If a bonus item is beyond your reach, it's possible that an invisible platform is positioned somewhere above you. Just make a leap of faith and you'll probably find yourself on firm footing.

NIMBLE GNOMES

It's best to have a proper plan for dealing with these nimble gnomes or Oscar's heart supply will definitely be in danger. Since Oscar has a heck of a time trying to hit the impetuous imps head-on, he should steer clear of them

What actor's career would be complete without the top role in an award-winning western? Oscar may be perfect for the part of lead cowpoke, but it's not his acting skills

that are going to get him through this stage! If Oscar doesn't want to be put out to pasture, he'll have to corral a bunch of gun-toting cowboys, stomp vicious vultures, and even give the heave-ho to terrifying ten-gallon hats!

HOPPING HATS

Few sights horrify a cowpoke more than a stampeding horde of hats. Besides being extremely harmful to Oscar's health, the hats are often hard to see because they blend in so well with the dusty landscape.

WHOA BIG FELLA

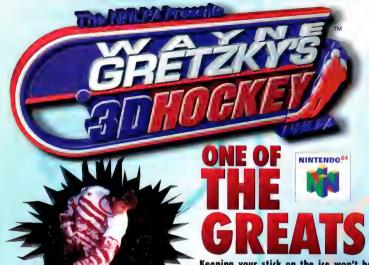

While it's always tempting to begin a stage with a running start, in the second and third western scenes it's better to take things slow. If Oscar searches around the scenes' starting points, he'll find several hidden platforms that lead to a bunch of big bonuses.

A CLOSING CLUE

In the last western scene, you'll find all the bonus letters lurking beneath the waves in the far-right section of the stage. You'd better swim slowly!

Keeping your stick on the ice won't be the problem once Wayne Gretzky's 3-D Hockey for the Nintendo 64 is

released this fall from Williams Entertainment. But putting the

Controller down may be next to impossible. This month's N64
Power play preview goes onto the ice to check out the lineup.

IN THE GOAL

Ever since the introduction of NBA Jam to the arcades, sports video games have come alive. Part of the attraction of NBA Jam can be attributed to the multi-player modes and the inclusion of real pro players, but the fantasy shots, easy interfaces and breathless action are just as important. Williams Entertainment and the tal-

ented development team at Atari Games Corp. have used that formula in an arcade version of Gretzky 3-D, but the N64 version of Gretzky includes even more modes and excitement.

Gretzky 3-D for the Nintendo 64 scores right from the face-off with instant fast fun on the ice. Up to four players can make use of the four Controller ports built into the N64 Control Deck, controlling reals NHLPA players from actual NHL teams. (The NHL license was obtained after we received the version of the game pictured here, so the logos have not been updated in these screen shots.) The only difference from live NHL action and the arcade mode, is there are just three play-

ers and a goalie on each team. The controls are smooth, quick, precise and intuitive. You can shoot and pass to or from your active player or drone players.

Super shots weren't available in the version previewed at Power, but the game's designer and programmer, Ed Logg, says that there will be flaming pucks and blistering shots that send the goalie flying back into the net. As for fighting, Ed promises special moves for slamming opponents to the ice. (Do not try this at home!) The N64 analog Control Stick makes the smooth control possible, and you will be able to customize the Controller buttons and analog stick to match the way vou like to play.

A DEUCE

The second big score comes from the 3-D graphics. Bill Hindorff, the Director of Product Development, told us that Gretzky 3-D will be the first fully 3-D video sports game. "The characters, the rinks, the control, all of it is 3-D. Other systems just don't have this capability," he said of the N64. Those 3-D graphics can be viewed from multiple, switchable camera angles including low angles and overheads from the side of the ice and behindeither-goal, (Did we mention that some super shots will set the net on fire?) Switching the camera perspective is as easy as the push of a button and it radically changes the view. The close-up, low-angle perspectives put you in the middle of the action, while the zoomedout views give you a better look at passing lanes and scoring opportunities, "Most people at E3 noticed the level of detail," Ed recalled. "We're very proud of that. You can see the team emblems and numbers on the jerseys as clear as day." But the level of detail will go even further in the final version, "Now that we have the NHI PA and NHI licenses," Bill said "we'll have the real team logos in the final game, and we think we can put the face of every NHL player on his character in the game, too." Imagine seeing Eric Lindross or Mario Lemieux skating around on your TV...and you're controlling them.

THE HAT TRICK

And finally, for the hat trick, Gretzky 3-D goes beyond the arcade game by including a simulation mode with full, five-on-five action—three forwards and two defenders. "We'll have everything in it," said Bill. "Full-sized rinks, real logos and characters, NHL rules, the teams, the players, the fighting." Wayne Gretzky 3-D Hockey will have the best of both worlds—the quick scoring, free-for-all action of the arcade game, and the NHL simulation. Add to that animated close-up celebrations, excellent sound, and the ability to switch out lines during the match and you've got the most realistic hockey game ever.

GRETZKY IN 3-D

The Great One himself helped the design team in the early stages of development. As it turned out, virtually everyone on the arcade development team was a hockey player or fan. "That was great for us," said Ed. "because all the design specs were done by guys who really love the sport." The ultimate Ice Rat may have been Robert Daily, whose development team began work on the arcade game about two years ago. In one session with Wayne last December, Robert and his team discussed three-on-three strategies, which led to changes in the game's Al. In March, they video taped Wayne on the ice, skating, shooting, stopping and turning, then rotoscoped the footage to make the animation model for the polygonal players in the game. "But the best part came after we shot the video," Robert confessed in our Power interview. "That's when we played three-on-three with Wayne. As a total hockey fanatic, that was a great moment for me."

PRACTICALLY PERFECT

Up to four players can join in, choosing teams and lines before hitting the ice

One of the most overlooked aspects of sports video games in general, and hockey video games in particular, is the identification of active players and the puck or ball. The

Gretzky team did an excellent job of

making smart, practical choices so that you always know where to look for the action. Active players are indicated by a colored circle or star. The star indicates that the player has control of the puck...at least for the moment. The circle shows your active player without the puck. At any time, only one player has a star indicator, making it simple to focus on the puck. The puck itself is large, has a highlight-

ed arrow above it, and uses a highlighted trail

on the ice.

THE LEARNING CURVE

Like a real opponent, Gretzky 3-D can learn from your game play. In the arcade mode, the game begins with fairly simple Al. Defensive players skate out

of your way at critical moments and the goalie seems to fall asleep at times. That's just to get you into the game. If you manage to score easily, the game sets its AI on a higher notch, making it harder for you to score. The computer's offense also gets smarter as the AI increases. "In the arcade game, you want people to pick up the controller and get a quick score because

they only have two minutes to play," explained Ed. "But we also want the game to challenge good players, so it learns what level you're at and adjusts its own play."

Players celebrate after a goal, but only for a few seconds. The game never slows down or loses its intensity.

ON THE

The only question left unanswered for Wayne Gretzky's 3-D Hockey now is: when will it it come out? Even though it will probably be one of the earlier titles this fall, it won't be soon enough. As the first four-player game for the N64, Gretzky 3-D will be the hot choice for hockey fans and party animals allike.

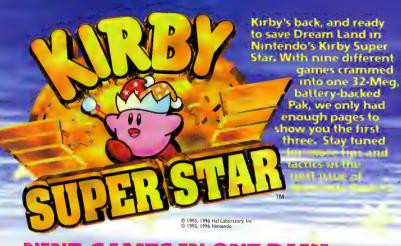

The level of detail even goes so far as to distinguish between right-handed and left-handed players.

Kirby Super Star has nine different games, including six side-scrolling adventures and three mini contests. Every game is ranked with one to five stars. The more stars, the higher the difficulty level, so there's something for players of all abilities. Pick a short and sweet two-star game or endure a gruelling five-star campaign packed with hidden secrets and surprises. If you're curiquist or considered and surprises. If you're curiquist one or confused, each game has a user-friendly tutorial program packed with tips and hints. As you complete each game, you'll

you complete each game, you'll

be invited to try tougher challenges, including The Arena!

AKE A BIG GULP

Like the original Kirby's Adventure for the NES, Kirby copies the powers of the enemies he inhales and swallows. There are over forty different foes and over twenty unique abilities for Kirby to copy. Depending on the foe inhaled and the status of Kirby's energy meter, he might be able to trick his enemies with up to four special attacks.

NO HARDWOOD

The tree at the end of Stage

One is easy to defeat if you have bombs and a helper. If you

don't have any weapons or

assistance, go ahead and spit the apples back

King Dedede made off with all the food in Dream and. It's up to Kirby to save the harvest and change

the King's wicked ways. Spring Breeze is a four-stage game for beginners, so on a difficulty scale of one to five, Spring Breeze is ranked a user-friendly one star.

Stage One, Green Greens, is a walk in the park, but be sure

to search high and low for all of the food, inhale the first enemy you see and copy their special ability. Then press the A Button and donate your special skill to a handy helper!

STATE OF

FLOAT ISLANDS

Stage Two, Float Islands, has a mixture of twisting caves, fiery foes and deep, dark water. If you're terribly tenacious, you'll find your way to the door step

of a large castle. Inside, Lolo and Lala are waiting to push you around. Use your special skills, or spew a block or two in their direction.

RURRLY CLOUDS

The entrance to the sky-high land of Bubbly Clouds marks the halfway point in the Spring Breeze game. If you're having problems with the Spiked Cloud at the end of the stage. keep creating a Waddle Doo as your helper and let him finish off the stormy guardian for you.

Mr. Dedede is the fourth and final stage in Spring Breeze, This is a short stage consisting of a ballway and the arena where you confront King Dedede. Have Rocky Helper with you and use the nb ability wow Dede off

ility and a help

Gourmet Race is a head-to-head footrace between Kirby and King Dedede. The victor is the racer who snatches up enough food to win the best of three races. This racing is not rated on the star difficulty scale.

THE BLOATED ROAD

King Dedede has a rough time navigating the thin rungs on ladders, so he needs to inflate himself and float up to take the high road. Since Kirby is a champion climber, you can usually get ahead of the bloated King on the ladders. Take the high road whenever you can, and you will float ahead with a big lead.

STAGE THREE

DON'T COOL YOUR JETS

Kirby's short little wings can't carry him fast enough to stay ahead of King Dedede, so you will want to strap the Jet Pack on Kirby's back. The Jet Pack is the first litem you come to on the third and final stage of the Gourmet Race. If you have it, this leg of the relay race is in the bag, Just make sure you pick up all the food you see on the way.

Dream Land's tasty crops are being devastated by a feisty fowl named Dyna Blade. Save the harvest by completing the game's five stages and plucking Dyna Blade's feathers. On a skill scale of one to five stars, Dyna Blade ranks a middle-of-the-road three,

KIRBY SUPER STAR

KIRBY'S CANNON-BALL BONUS

Each time you complete a stage in Dyna Blade, you can play for extra lives in a special himse round. The object is to fire the camum when the energy meter is at its maximum power. If you can shoot kirby past the Number "" Sun, you'll pick up three extra lives.

Welcome to Cafe Kirbyl When Kirby has the Cook power, he cam bang his cutlery together to call all the enemies for dinner. Your fees won't realize that they're the ones on the menu until Kirby slams the lid on the big kettle. Kirby adds a little seasoning and voilal Your former foes are tasty treats!

HAMMER TIME

Pick up three extra lives by pounding down this post outside the castle near the end of the second stage. Slamming the post

detonates the explosives stored beneath the castle and reveals a secret room. If you don't have a hammer, you can use the Stone Powers of Rocky to accomplish the same job.

STAGE FOUR

BEAVERS ON TYPE

If you find a Hammer, you can pound down a post and open a narrow corridor full of cannons. These cannons won't shoot at you, but if you hop in one you can carom off the mountains and find an extra life.

MULTIPLE EXITS

There's more than one door to exit the fourth area in Dyna Blade, but there's only one secret entrance to the Bonus Stage. Look for a door in the lower left corner of the lava section of the level. The Bonus Stage isn't very long, but you can choose from nine different powers and raise your life meter.

Shocking pink may be a cool color, but this hover bike is even wer than the blue sion! Still, for real fun, there is no three yelgicle

ZERO RACERS

I-LAT-UUT SPEED

Remember the rush you got when you first played F-Zero on the Super NES? You leaned, you schamed, you turned the car around and went shooting back the wrong way just to smack into the oncoming cars. Those heady days of hurtling mayhem are back again, but this time

it's taking place in the territory of that masked stranger known as Virtual Boy. This time you're in the cockpit of a racing rocket, navigating inside tunnel courses. In Grand Prix mode, drivers chal lenge the entire series of tunnels Practice mode lets you check out the tracks before the big race and set time records. Since your juiced-up let files at speeds

approaching 1000 kph, and the tunnel walls are just a few virtual feet away, there is no room for error.

Some vehicles corner well while others are good for flat-out speed. Choose the right one for each course.

Each of the racers expends fuel when accelerating or slamming into walls Luckily, you can fill up on juice at the refueling strip.

trap on a seatbelt and toss out your driver's license. because Zero Racers ignores the laws of gravity and man. Nintendo's new Virtual Boy racer shoots the red light and takes you to the edge of panic. If you like narrow spaces and highspeed chases, Zero Racers will be right up your alley. It's the game Virtual Boy was designed to run.

© 1996 NINTENDO

IN 774E CUCAETT

The number one job, once you climb into the driver's seat, is to keep from splattering your ship all over the tunnel walls and ceiling. The throttle, brake and left/right steering controls are standard, but you also have a Turbo Boost button and your vehicle can dive or climb to give you full control in three dimensions. You'll need that control since the tunnels twist, dip, turn and dive like a roller coaster.

Zero pilots have total control over their ships in the tunnel. Fly high or low depending on the course.

The Falcon is a good all-around ship with medium acceleration, good turning and a fairly high maximum speed of 852 kph. For tunnels with turns and straightaways, the Falcon works well.

At 837 kph and slower acceleration than the Falcon, the Stingray shines in narrower tunnels where turning control is vital and top speeds are seldom reached.

TUNNEL ELYINIS

Before racing in a tunnel, you can fly through it using the VTR option. You'll make a complete circuit of the track so that you can see all the nasty surprises waiting for you. The three circuits have five tracks each-15 courses in all-enough to keep Grand Prix racers primed and paranoid.

Tunnel A5 in the Practice mode consists. of 11.110 meters of white-knuckle flying terror.

Tunnel A3 is fairly short with lots of curves and few places to use the Turbo.

Tunnel A4 features lots of turns but not many ups and downs. You'll

Obstacles and sharp turns make for a bruising ride in Tunnel A2.

The heavy Goose has a slow acceleration curve and modest cornering characteristics, but when it gets up to top speed at 862 kph, it blows away everything else.

The paper-light Origanumy accelerates instantly and whips around corners like it's on a rail, but the maximum speed is only 835 kph. You'll want this ship in the most twisted tunnels.

While the War of the Gems offers five heroes to choose from, determining which character is best suited for a particular stage can be a delicious dilemma. You can only play one hero per level, although you can replace a character who's fallen in defeat. Once a hero is bumped off by baddles, he's a goner for the rest of the game.

The web-slinger, with his wall-climbing skills and lightning-fast reflexes, is an excellent soldier in any stage of the war. He's quicker than the other heroes and he's a punishing web-ball pitcher. This web-master is quite a swinger, too!

Everyone's favorite X-Man is definitely the dude you'll want to use if a ferocious fight lies in the foreseeable future. His razor-sharp claws are terrific for climbing and for slicing up foes with surgical skill. This hero is most effective in close-range confrontations.

This mass of pure muscle sure packs a major wallop! Where another hero might have to pummel a foe repeatedly, the green guy can finish the job with just a couple of punches. The Hulk's bulk is his only weak point, because he must plod along at a snail's pace.

When it comes to protecting the planet, what team would be complete without this super-patriot? While Captain America is a well-balanced hero, his star-spangled shield really makes him shine. It delivers formidable defense and, when thrown, rarely misses the mark.

This knight in shining armor is perhaps the team's most powerful member. Besides providing super strength, his heavy metal suit comes complete with high-jumping jet boots and gloves that pack some potent powers.

help give Mole Mania that insidious "just one more screen" quality for which puzzle enthusiasts hunger. Players are cast in the role of Digger D., a mild-mannered mammal whose family has been molenapped by an anti-social sort named Jinbe. It seems Jinbe doesn't take kindly to his subterranean neighbors, and he's promised the Mole family a fate worse than death, unless Digger can root them out in time.

Common enemies can be bowled over by balls or crushed by cabbages, while the major-league bad guys will take more finesse.

You can dig up all sorts of items and power-ups along the way, including maps, enemy detectors, extra hearts to replenish your health meter, and more.

@ 1996 NINTENDO

ROOTING FOR FREEDOM

Each level of Mole Mania is broken down into a series of puzzles, one on each screen. You must dig tunnels, defeat enemies and move objects around to reach the exit. Just one wrong move, like digging a hole in the wrong place, may spoil your chances for escape, but you can reset the puzzle by returning to the previous screen, then coming back in. There are two save files, and the game automatically saves your progress after each screen is completed.

TUNNELING

You can dig beneath some obstacles, but you can't go everywhere underground, either. Digging a hole in the wrong place may prevent you from moving an object into the correct position for blocking or defeating an enemy.

MOVING OBJECTS

You can push, pull and throw balls and cabbages. If a cabbage lands in a hole, it will disappear, but if you toss a ball into a hole, it will pop up somewhere else on the screen.

HEART

The heart in the lower-right corner is your health motor. You can take several hits before it is daplated. You have only one lite but unlimited contin-

You've wanted it, you craved it. now you got it: the most in-depth preview yet of the mostanticipated game ever! @1996 Nintendo

In bringing to 3-D life the world's favorite plumber, Mario creator Shigeru Miyamoto and his crackerjack team at Nintendo Company Ltd. have rewritten the book on video games. No video game character has had such variety and freedom of movement until now. No game has ever given players the complete freedom to view the action from any point of view until now. No game has ever combined fine-grain texture maps and fully rendered characters with blazing action until now. The spellbinding story begins when

Mario, paying a visit to Princess Toadstool, finds her castle mysteriously vacant. To find out what happened, he'll have to explore every nook and cranny of her maryelous mansion. But that's just the beginning. The action really takes off when Mario hurtles through paintings into strange new worlds unlike anything you've ever

seen before. Hey, this game's so good it's downright scary. But most of all, it's terrific fun. So take a deep breath, take a long look, and remember Super Mario 64 debûts next month. Prepare to be blown away!

A MARIO FOR ALL SEASONS

Each leap through a picture in the Princess's castle takes Mario into a fantastic new world. Imagine Mario slipping and sliding around the hairpin turns of an ice-covered mountain, or swimming behind a rocky outcropping to evade a ravenous sea monster. Super Mario games have always had terrific play control, but the movement in this game will knock your socks into another dimension. The ingenious Control Stick gives you pinpoint control as you move through three dimensions. Go on, get lost in Super Mario 64. It's the most magical journey you've ever taken!

WATER

Dive into the deep blue. Try different strokes, twist and turn, and you'll swear you've entered an underwater paradise. Fine—but can you spatch coins from giant scallops? Raise a iken ship? Even mere reasures await you in Super Mario 64's marvelous maritime worlds

Watch your traction. Blizzards and steep slopes make for tough sleddin in Super Mario 64's trigid worlds! Mo a little too last, and you'll find yoursal skidding off an ice-covered ledge! Oh, by the way: try to do all this while car rying a lest punguin Hedgling home to its mother, Just remember that it's a own your down if you stip

Howling sandsturms, dangerous dunes and jitterbugging Cactuses await Maria in this sun-baked world. Scurry quickly across the scorching sands, and remem ber; the ancient pyramids won't yield their secrets easily

SPOOKY

Not content to create breathtakingly realistic D environments his team have conjured up one

Practice your various locomo tion skills before ventaring anto the chimmering

Self doing pienty of hopping, climbing and flying as you try to keep your cool little footsies from getting burnti

piders patrolling the meanlit growings and enter to castle—if you dare, theide, ghosts faile in and out of the woodwork, while a Mad Piano would love to chew Marie into choosticks

EXOTIC ENCOUNTE

Familiar friends and foes get all-new capabilities in Super Mario 64. Toad haunts odd comers of the castle, always ready with a piece of friendly advice. Creep slowly by the napping Piranha Plants, lest you wake them. And keep checking your back whenever Goombas and Bob-ombs appear. They love to circle behind and ambush you!

TALK OF THE TRIP

A gaggle of friends old and new offer timely advice ask for Mario's help. Bob omb Buddles will wheel out cannon in high-flying pleasure, whee month sailing with monster glides into view!

THE COOD WITH THE PART

Armed with nothing more than his gloved hands, Morio must catch a runaway burny deep in the castle's vault. Co-Toy and Huge Island, he must stomp genericke and grante as pipsqueak and provide tranha Plants.

BADDIE BONUSES

Snowbound Mario can grab a stellar prize and a quick trip aloft from a couple of petulant passers-by. In the desert, a larcenous leads the way to

major treasure, while a fast-property guards a precious blue coin with his needles

BRAWL WITH BOWSER

MARIO'S AMAZING MOVES

Stretch your skills on the castle grounds, climbing trees and taking a dip in the moat. When you first reach the castle, send Mario leaping onto balconies, bouncing off banisters and flying across the floor. Hey, astonishing acrobatics are just part of Mario's motion sickness. Vault through a picture, then bump up against a Treasure Box. At the drop of a plumber's cap, Mario can swoop, soar or sink like a stone. He can even hitch a ride with a passing owl.

FETCH TREASURES

HAT TRICKS

An unseen haberdasher has hidden wondrous caps in Treasure Boxes throughout Super Mario 64. Put on Vanish Cap to stroll through solid walls and take to the skies with the Wing Cap. Metalhead Mario sports a shiny Metal Cap. Not only does it tender him practically invincible, it allows him to sink like a stone in water. These short-lived super-powers make for some of the giddlest moments in the game. When they wear off, though Manager of an invital fall!

MKCHF MARIO

Ready, aim, fire! Have a blast while rising to enter heights of excellence with can nonball Mario. First, though, you must talk to the kriendly Bell-omb who's manning the cannon. Aiming carnons ikes trial and error. Fortunater, Mario seems to like the idea of racking up high-flyer miles!

THEME PARK

cean of America hasn't managed to bring this strategy simulation game out in North America, but it looks as if another publisher may get the chance. Epic News has been following a potential deal for several months that would bring Theme Park to our strategy-starved continent. Based on the cult-hit computer game of the same name, the Super NES version of Theme Park recreates a quirky, in-depth world in which you build, own and operate a theme park. Your job is to turn a profit. then go on to build bigger, more elaborate theme parks around the world. Let's hope that you get the chance to play it. Our fingers are crossed.

SOURCING HYRULE

For those of you who trek into cyber worlds such as America Online, you may have discovered the latest interactive story in Nintendo Power Source, entitled Hyrulean Adventure. Based on the people, monsters and histories of Hyrule from the Zelda series of adventure games, this interactive story has been up and running for

Artist's Screen Name: "The Bat 08"

about a month and a half. In the first five days alone, Hyrulean Adventure racked up more than 2500 chapters from hundreds of writers Like the other interactive stories in Power Source, Hyrulean Adventure is a free-form, role-playing story in which anyone can create a character by following a limited set of rules. Besides the folders containing stories of derring do and magic. players can stop in and see what's happening at the always raucous Turtle Rock Inn. Familiar characters playing their part in Hyrulean Adventure have ranged from Wizzrobes to a race of industrious monkeys. If you're connected to AOL, definitely check it out.

MONSTERS AND MYTHS

All is quiet on the Western front when it comes to RPGs these days. As a result, our roving Epic News eve has turned to the land of the rising sun where the advent of new game systems has not dimmed the Super Famicom as the premier platform for epic games. In addition to the titles mentioned below, don't miss this month's overseas look at the Fire Emblem series from Japan and the new Fire Emblem IV.

Hudson's Big Shell Monster II, due out this summer, is a rough translation of the title of a 40 megabit RPG from Hudson Soft in Japan, Discerning readers will note that there must have been a Hudson's Big Shell Monster I at some time in the past. There was and it was something of a minor sensation. The new game includes much that Final Fantasy fans would recognize in terms of graphics and play, but some of the innovations give Shell

Big Shell Monster II

Monster a special feel, In particular, the battle screens present a nice view of the fight from behind your party that really seems to put you into the action. As for the game's name sake, it's a sort of mechanical lobster/scorpion that is the size of a small mountain.

A 32 megabit Wizardry IV for the Super Famicom also is coming out in lapan from ASCII. The game features excellent graphics, but the characters are

Wizardry IV

taken from traditional Japanese culture unlike previous Wizardry titles. This sequel follows the latest Wizardry RPG in Japan, which appeared on the Game Boy.

FIRE EMBLEM RISES FROM

The Japanese video game market is like a year forest of RPGs, with literally dozens of new | Super Famicon titles specified and provery year, I/I5, a miracle that any game, stands out at all, but that's "exactly

The second Fire Emblem follows the exploits of Marus after the fall of Medious. The land seems to be getting back to normal when Emperor Hardaine suddenly calls for help. Marus grows suspicious, but sets out on an expedition.

what Fire Emblem has achieved in four reincasnations. Like Dragon Quest and Final Fantasy, Fire Emblem has beaten the odds. The series began quietly with Fire Emblem: The Lightning Sword and the Dark Dragon. This game introduces the hero, Marus, who confronts a powerful dragon named Medious. The game's unique approach is to break up the traditional RPG party. into individual characters. Players control Marus and his followers, including knights, magic users, fighters and other characters. Individual characters move independently on an overworld map where strategic placement is the key to success. Characters lalso have their own stories, which often cross and intertwine with the tales of other characters. The mix of strategy and in-depth storytelling makes for an intriguing blend, something like a mix of Final Fantasy III and Ogre Battle.

Some bif this hieroes and villams of Fire Emblem have been equipped with weapons from the gods. Other weapons can be purchased in towns and weapons worn down in battle can worn down in battle can

The third F.E., Searet of the Crest, released in 1993, was a remake of the first two Fire Emblems, but with new battle scenarios. The fourth game begins a new chapter in the history of Fire Emblem.

Fire Emblem battles take place in the overworld in different types of terram such as the forest or plains where your characters may gain an advantage. The resulting battie is played out in an animated sequence that shows all the action.

ZIGLUDO'S HOLY WAR

The fourth Fire Emblem begins a new story that plays out in 32 megabits of dramatic graphics, stirring music, and constant plot shifts. The new hero is a warrior named Zigludo. In the second half of the game, Zigludo's son, Serlis, takes on the continuing quest to free the continent of Jugdral from lingering evil. In each scenario, Zigludo or Serlis seems to be drawn further into various intrigues. As you move into the battle action, story elements continue to develop, as well. For instance, when you sack the first enemy castle, word is passed along to the next castle where troops have been waiting secretly to swarm out. One thing leads to another, leading you deeper into the mire. Characters gain experience

from fighting or using magic throughout the game, but they also develop relationships, including love relationships. Fire Emblem is truly a game of epic proportions. It's no wonder that the series has built a devoted following that has grown with each new release in Japan, At this time, however, there are no plans for a North American release.

In the castle towns, characters can buy or repair weapons, or talk to a fortune teller.

ラケシス、俺はアグスティへむかう。 おろかな挙兵などやめるよう 陛下におねがいする

おまちください。兄上し

ことは希親版だ

Characters collect money for their deeds and pays for repairs or items out of his or her pocket.

When predestined couples meet, they fall in love and may have chil-

dren. But if you carelessly let one of the

The term "classic" has been used to describe everything from literature to cars and, yes, even video games. Join us as we take a look at a collection of 8-bit NES epics that helped shape a growing industry and captured the imaginations of a generation of players.

Starting the Trends

Webster's Dictionary defines "classic" as "serving as a standard of excellence" and being "noted because of special...historical associations." While some overly serious people might balk at describing any video game as a classic, we game players know that there are a number of titles that truly deserve that accolade.So what makes a game a classic? These days, it seems a game has to have full motion video, digital sound and a holographic projector to register even a blip in the gaming press. Once you get past all of the hype, though, the primary elements that make a good game are the same as they've always been. If it doesn't have an interesting plot or intuitive play control, no amount of technological trickery will fool you into thinking "3-D Mutant Zombie Killers IV." is a good game. There's no doubt that having a bit of eye candy in a game is always a plus, but having a lot of mind candy is what keeps players coming back. People play games to be challenged and entertained. No matter the platform. no matter the number of bits, if a

game is challenging and fun, players will flock to it. It's no wonder, then, that such benchmark titles as The Legend of Zelda, Dragon Warrior, Shadowgate and Nobunagar's Ambition are still enjoyed the work over. These games are no longer on the cutting edge, but they set

the standards for quality for the dozens of titles that followed, and they inspired the major themes and trends that still drive the epic genre today. It's doubt-

ful that these games will be readily available in stores, but if you're one of the deprived few who have never partaken of Link's first adventure or walked in Erdrick's footsteps in the glory days of Alefgard, you'd be doing yourself a favor to rent, borrow or buy any copies you could get your hands on. They may be 8-bit, but they are all classics to the core!

While most adventure games to date had focused on the actions of the male. here with a wage is possible. the land or was new and more varied than anything we'd talking to people and gathering clues from the four ners of the kingdom was essential to your progress. Rather than simply concentrate on purely physical puzzwa. like win ch black to push time or how to unlock a door, you had to keep people's problems and conas you that was only through listening and learning that you would be able to find the answers you come bring lasting peace to the world.

Solstice

Originally used in several arcade and NES action games, the 3-D "parallax" view lent itself perfectly to Solstice's mind-bending puzzles. Side stepping the more combative side of adventure games, players had to help the wizard Shadax work his way through 252 different puzzle rooms in search of the six pieces of the Staff of Demnos. Various items and potions gave you the power to see invisible blocks, become invincible and even stop the flow of time. Seldom seen in recent years, the parallax view is gaining prominence once again in Nintendo's Super Mario RPG for the Super NES.

Whether they're set in a mystical past or a wartorn future, RPGs are the true epics of this genre. They encompass the fates of entire races and the survival of worlds. They are rife with

drama, intrique and, of

course, hordes and hordes of slathering monsters. Above all, though, they teach us that if we build up our inner strengths, we can accomplish any task set before us.

New Role To Play

Role-playing games existed long before video games, growing out of traditional war games that recreated famous historical battles. The term "role-playing game" was coined in the 1970s to describe a type of war game in which players acted out the roles of their armies' generals, but RPGs soon dropped the large armies and embraced fantasy themes. The most notable and enduring "live" RPG to appear was and still is Dungeons & Dragons RPGs garnered an intensely loval following over the next few years, eventually finding their way onto computer screens in simple, text-based games. With the growing use of personal computers in the 1980s, especially on college campuses, RPGs expanded beyond small groups of loyalists, but it wasn't until the advent of home video games that they truly became a mass market form of entertainment.

Dragon Warrior

By the time Orangon Was was released in the U.S. was 1989, it was already a certified hit in Japan funder the Dragon Opest name and had spawned three blockbuster seque

Wizardry

Wizardry brought RPGs full circle, introducing Dungeons & Dragons-style game play to the video scene.

Using computer-generated numbers instead of dice, the game allowed you to create up to 20 of your own characters to use on your quest. You could choose from five races and eight character classes (a class being a particular occupation, like a Thief, Cleric or Fighten). Most of the races had a particular affinity for a

specific class. and vou could CHS tomize your party to fit your strategy gaming style, Budding dungeon divers also had to keep an eve on their characters' alignments: that is,

whether or not they were essentially good or essentially evil. The mix of alignments could affect how well your party worked together, and if good characters performed a bad deed by attacking good monsters, or evil characters performed a good deed by attacking evil monsters, your party's alignments could suddenly flip-flop! Wizardry offered a standard RPG plot of exploring a huge dungeon in search of stolen treasure. gathering up tons of terrific items and weapons, and defeating a nasty sorcerer. 1 ike its paper and dice forbearer, though, the real fun of Wizardry was in managing your characters and enjoying the dynamics between them.

Final Fantasy

EVER SEEDS MEL. YEAR'S.

Whether the goal is carving out an empire in ancient Japan or building a globe-spanning airline, strategy and simulation games are not for the faint of heart. Only the most hardcore, detail-oriented game gurus need apply.

Politics and Powe

Strategy games have never been as popular here as they are in Japan, but their fans are the most intensely loyal gamers you'll find anywhere. The appeal of strategy games is in their extreme level of detail, and if you ask any armchair general about his or her latest campaign, you'll probably be treated to a spirited lecture on the many intricacies of battlefield tactics and political intrigue. Historical simulations are the most common type of strategy game, but titles have featured everything from building airlines to controlling a colony of ants. Whatever the setting or premise, strategy games allow us, in some small way, to relive a slice of history or create a future all our own.

Romance of the

Following quickle on the heels of Nobunaya Amboition, Romance of the Three Kingdoms offered an even

H: JOT

own grand style)

Destiny of an Emperor was a unique combination of strategic-level combat and RPG-style characters and plot, once again using the civil wars of ancient China as a backdrop. Like its predecessors, Destiny of an Emperor was populated mainly by historical figures, though this game took more liberties with actual events. In your quest to place the rightful emperor on the throne, you had to visit over 50 locations and interact with at least 14 major characters. Destiny of an Emperor didn't spawn an ongoine series here in the U.S., but it's probably safe to say that it had a significant impact in the Japanese market. We wouldn't be surprised if it was, at least in part, the inspiration for Ogre Battle and its Japanese-market sequel, Tactics Ogre.

Nobunaga's

Metorical signs are posted in raditional warranges, but their video descendants, like Nobunaga's Ambition from Koei, brought politics and economics to the table. As one of many warring fendal

lards in medieval Japan, payers had to conquer or an catole them into towing their line. For the first time, though, and one took a back sent to the practicalities of governing and the culti-

witing of food, the latter of which as become one of the hallmarks of role strategy genre. Stratem same are not everyone's cup of i ut we quality otles like this one, the beauty is in the details.

STRATEGY

OgresBatt

One of the primary goals in Ogre Battle, as in most RPGs, is to raise your characters' attributes. It is possible, however, to build an army of "dark" characters and complete the game with a low Alignment-just don't expect to live happily ever after. Hang on to your helmets as this month's Epic Strategy takes you on the low road to victory!

THE LOW

Having a high Alignment rating (the measurement of how "good" or "evil" you are) is the primary condition for recruiting key characters, obtaining powerful items and ultimately getting the "best" of the 12 endings to Ogre Battle. Being of such great moral character, players with high Alignment are plesumably content with upholding the claims of the rightful heir of Zenobia and not interested in making their own bids for the throne, if you choose a more shadowy route through the game, you can defeat Empress Endors and take ultimate power for yourself, but keep in mind that you'll have to face the consequences actions Be warned: if you trod the darkling path, you and your ilk will be paid in kind for your deeds. Still interested? We thought you might be...

Alignment

The only way to become ruler of Zenobia and to see the "dark" ending to the game is to obtain the Brunhild Sword and recruit the demonic Galf into your ranks. We'll first discuss the various elements involved in this plan, saving the instructions for actually requiting Galf the Demon for last.

will he live to regret 159

The key to achieving your goals is to lower Alignment rating, and that of your army. Galf won't join you unless you prove that you're as bad as he is. Much of the game is structured around helping people, so this is actually tougher than you might think. Many of your required tasks will naturally yield positive results, so you'll have to complete your missions in ways that will put you in a bad light. Any actions that place you on the "Way of Kings" will turn Gali away and spoil your plans.

Keep in mine that while you lower your Alignment you can still maintain or build your other attributes to the necessary levels for finishing

the game. In Volumes 75 and 76 we discussed some speoffic strategies for boosting your Alignment and as you might expect, reversing those strategies will result in a lower dignorent In case you weren't around for those issues tend for the sake of (larity) we'll discuss those strategies again and introduce a few new ones, as well,

The first element that will Warren places his trust in you, but help you achieve a low Alignment is the set-up process at the beginning of the game where the computer generates your character. The computer will ask you a series of questions, usually 10 out of a pool of 20. Each question relates to a specific attribute or attributes. like Alignment, Strength, etc., and

Are you a good witch or a bad

the answers shown are worth a different tumber of points each. Once you've selected your answers, the computer : ences. Your soldiers will toler-

will taily up the points scored in each category and create a character profile for you. You can achieve a relatively low Alignment by choosing the more selfish or harsh responses. We haven't been able to calculate the exact point value for each answer, but it

Check to see how your answers also affect your other attributes.

will become quite clear after a few tries which ones will yield the results you want. The lowest Alignment rating we've been able to get at the outset of the game is 37. A starting Alignment of 50 is average, while 60 would be considered high.

After you complete the first scenario, vou'll be given command of a large army. Your warriors are happiest when they're grouped with other soldiers of similar Alignment, attributes or class.

A unit can have up to two large characters or four small ones.

On the flip side, stark differ ences between characters in a single unit will breed tenand cause their sion Alignments to fall For examore, all of the characters have. a preference for a specific type of terrain, either Plain, Mountain, Forest, Water or oky. A upit comprised entirely of Plain creatures will likely achieve higher Alignments than a unit of mixed prefer-

ate most combinations to a certain degree, but putting opposites like a Water creature and a Sky creature in the same unit will lower their Alignment ratings dramatically. Placing two characters of drastically different Alignment or class in the same unit is also effective. A difference of a few points won't matter much, but watch what happens if you keep a dark character like a Wizard (sav. around Alignment 30 or so) and a holy character like a Cleric (at Alignment 60 or better) in the same unit over a period of time. You'll even find that

Mixing characters will lower Alignment, and reduce effectiveness in battle.

placing the flercely independent women of the Amazon classes together with any male fighters will affect them all negatively

all negatively. Once you're on the march, there are a myriad of ways to undermine your army's moral character. The first is to use overwhelming force against your enemies. Pack each of your units with the most characters or the most powerful characters you can. Pause the gapte and inspect individual enemy units as thev approach. Arrange for each one to be met by much more powerful adversaries. If the enemy units are not vanguished after the first battle. pursue them until they're all wiped out. If you want to be particularly sneaky, circle your flying units to the rear of the enemy's front line and use them to mop up wounded or fleeing units. Ordering your units to concentrate their attacks on weaker enemy characters may also have the desired effect.

Check each town's Morale rating before you liberate it.

Another taction is to use average to low Alignment characters to liberate towns whenever possible, If the liberating unit's characters have Alignments that are lower than the town!s Morale, their Alignments will doop. Before entering a new town, point to it with the cursor and press A to see its Morale rating. The Morale ratings are listed as Low-Mid and High We don't have exact numerical values for these ratings, but we suspect that an Alignment of 40-60 would correspond to a Mid Morale rating.

If you'd like to pull down an individual character's Alignment very quickly, let him or her be defeated in battle. You can bring that person back to full fighting trim with a quick visit to a Roshfallian Temple or a dose of Revive potion, but his or her Alignment will suffer greatly in the process. Make sure to place the person in question in a large group (he or she

If a unit's Leader is defeated, you won't be able to control its movement after the battle.

should not be the leader) and to keep the rest of the unit in good health. If the entire unit

is wiped out on the battlefield, they'll all be gone for good.

Other events, like finding certain look cards and recruiting major characters, will also affect Alignment. As your, Alignment drops, you may find it difficult to record may find it difficult to record most of the major characters, who tend to be upstarding-citizens. Galf is the only major character necessary for getting the dark ending to the game, but you'll probably miss having some helpfing hands.

Reputation

While you work at driving your Alignment down, you should also be working at building your Reputation. The reason for this is that you

Keep an eye on the Reputation meter on the corner of the map.

need the Brunhild Sword to complete the game, and obtaining this weapon requires a relatively high Reputation. While Alignment and Reputation are often linked, it is possible to affect them separately.

Search every area thoroughly for hidden towns and temples. Liberating these places will most likely help advance your Reputation quickly. You'll run the risk of drawing Tarot cards that will increase your Alignment, but those gains can be easily offset by your other, not-so-charitable actions.

You should also talk to all of the major characters you meet even if you don't think they'll join you. Just the act of speaking with them and exchanging information may enhance your Reputation. Even it these individuals disagree with your tactics and refuse to join you, they may respect your strength and spead the word about you.

One often overlooked tactic is to be lenient with any enemy character that asks for forgiveness. Granting forgiveness may either raise or lower your Reputation, depending on the specific circumstances, but there's a good chance the downtrodden people will be moved by your act of mercy.

Lastly, we recommend pitting powerful units against weaker enemy units as a way to lower your Alignment, but every so often, you should send average or weaker units into the fray. If the citizenry of Zenobia see your valiant armies battling against overwhelming odds, they'll think well of you. Your Reputation

Keep a supply of Cure and Heal potions on hand in case things get rough.

may also get a boost if your weaker unit retreats from a stronger enemy. If you use these tactics sparingly, you won't have to worry too much about your Alignment. Once again, the occasional honorable deed will be more than offset by your ongoing underhandedness.

You're In the Army Now

As you progress through Zenobia, you'll need to take full advantage of your army's skills and abilities if you expect to triumph on the battlefield. This means promoting individual characters from one classification of fighter or creature to another, more powerful one. Since

you'll be working at lowering your amy's Alignment, many of the usual character classes will not be available to your the later stages of the game. You'll have to rely on the more malevolent character classes to get the job done. We've compiled a list of the lower Alignment characters shar you'll probably want to use and the Class Change charts

show the requirements for creating them. The levels and ratings shown are the minimum required for promotion, except where a range of points is given. Some of the Alignment requirements may seem a bit high, but these are asually for prometions that can be made early in the same.

Creating relatively high Airgnment Individuals obviously goes against the grain of with you're trying to accomplish, but you can get away with it, if you're careful, If you can't resist creating a Cleric or two, for example, just keep a squad of Amazons separated from the est of your troops. Use them to build your Reputation early in the game, which will also

help maintain their Alignment

around 50. Once you promote them to Gleric class. you won't have to worry arry

Fighters are the most versatile class of warrior in the game.

more about keeping their Alignments up. You can then integrate them into the rest of your army.

Depending on the types of characters you have in your ranks, you can also try to recruit some neutral fighters and creatures 'as necessary. This can give you access to some characters that you

Clerics are too useful to pass up, and creating one or two won't endanger your scheme.

soldiers. You can't recruit a character if you don't have an empty space in the unit for him or her.

You night also be wondering about special items for your troops. As your probably expect. By now, a high Alignment is a privary requisite for obtaining many of the more powerful antifacts in the game. There are a few-tained odds here and there, though, that you'll be able to get your claws on. The Item chart shows the locations of some useful relics with less-than-

Use the Recruit option to replace any losses you incur.

steyling reputations. Indeed, just obtaining them may go a long way towards lowering you vall Alignment, helping you pave the way for your eventual meeting with Galf.

Deneb the Witch

Since you'll be playing up the more sinister aspects of your personality, few major characters will be inclined to join your cause. The lack of their raw power will be felt keenly

from time to time. The only one who may sign on with you besides Galf is Deneb. Some players have asked how to recruit her, but doing so may affect your overall plan.

You'll need to forgive Deneb for her crimes if you want her to join, and she'll be more inclined to enlist if you have a low Reputation, Since her crimes were so heinous and the local populace is sobitter, this is one instance in which showing mercy will likely lower your Reputation. This wouldn't be a problem if it wasn't for the fact that vou'll need a high Reputation to get the Brunhild Sword While Ogre pattle may unfold differently each time

If you forgive Deneb, you can get the Glass Pumpkin, which allows you to recruit Pumpkins

you play, Deneb's Garden is usually the sixth area you'll encounter in the game, while the Kastolatian Sea (where the sword is hidden) is usually the ninth. You could try to maintain your Reputation at your starting level and then raise it after you've enlisted Deneb, but this gives you precious little time.

You may also be able to continue the game and come back for the sword later (you probably won't need it for another eight scenarios or so), but this is risky. There's always a chance that you won't get an item or recruit a character even if you've seemingly fulfilled all of the conditions for doing so. We haven't come across any specific circumstances that have prevented us from getting the sword, but with so many random factors

in this game, you never know what actions os skidations may sabotage your plan You should save your game at key points using different game niles, just to be on the safe side. If fining don't you can always load a saved game and my again.

The Sword and the Demon

Recruit og Galf is the linchpin of your entire plan, and he can be very finicky about the kind of scoundrel he'll team ip with. He is currently in league with Empress Endora and her ally, the wizard Rashidi, so you'll have to present him with the Brunhild Sword to seal your bargain.

This mighty weapon is secreted in a hidden temple in the Kastolatian Sea area. Search the island in the northwest corner to find it. Once it is in your grasp, you won't have to worry about keeping up any pretenses of being good. Recruiting Galf requires low Alignment and low Reputation, and you'll have about eight stages in which to blacken your own name. Besides using all of our Reputation enhancing strate-

The Brunhild Sword is the key to winning Galf's assistance.

gies in reverse, you can also employ the heartless tactic of letting the Empire re-take cities several times before you finally liberate them for good. Just watch your Alignment and Reputation plummet!

With the Brunhild Sword in hand, cut a swath across cenoba until you reach the province of Antalia. Once you rout the Imperial troops and secure the area, use the sword to activate the local chaos Gate (on a large island in the western reaches) and travel to the hidden province of Antanyl.

Liberate Inohngo and all of the hidden towns and temples in the northern part of Antanjyl. Use a Crystal to make sure you haven't missed any. After you gather all the

Even if you fulfill all of the criteria, Galf may still not join you.

clues you can about Galf, go to his stronghold and chalenge him. If you've proven yourself to be enough of a black hearted cur for his taste, Galf may offer to join you after you defeat him. He'll likely ask for the Brunhild Sword, so a ahead and eive it to him.

With Galf at your side, no force in the kingdom will be able to stand against you. The crown of Zenobia will be yours, but at the price of your soul. At the height of your victory, Galf will possess you. Empress Endora's crimes will pale against the depravities that Galf will commit in your name. Maybe this absolute power thing wasn't such a great idea after all!

The Future is nintendo 64 NOW JAPAN

On June 13rd, the Nintendo 64 went on xilv in Japan, changing the face of video gaming for over. Nintendo Power's roving eye took in the monumental event just to give you a taste of what to expect on September 30th when the N64 arrives on this side of the Pacific.

NTENDO 64

THE SELL-OUT

When the Nintendo 64 hit the streets Japan, it was off and running out the doors practically before it arrived. The initial 500,000 units sold out in just one week. Many went to gamers who preriously put down their 25,000 Yes about \$250. Time maining N64 units were matched up by demicated family Some of those fam waited overnight on me first day, in long orderly lines outside major department and etennics stores, in

order to ware that they would be one

stores, the clerks didn't have time to put the games out on the shelves. They took the units directly out of the packing cases and handed them to eager customers. Report (ly, 20,000 retail received N64s for sale, but clearly 500.000 available units were riot enous to neet

demand. Sendo Power's resentative in Tokyo had a desperate moment when he got turned wound in the Sinjulu district and couldn't fir eith ne sore or line where he could be an N64.

aged to snag one of the precious units.

Of the enterprising gamers who preordered their N64s, many of them took,
advantage of a new program whereby
Nintendo offered the system through
the Lawson chain of neighborhood
convenience stores. Instead of having
to travel to the big department stores,
buyers picked up their N64s just down
the block.

WHAT'S IN

When gamers got home are opened the Nintendo 64 hox, this is what they saw. First off, they found the N64 Control Deck. Many were surprised to

find that it was slightly smaller than their 16-bit Super Famicums They also found an AC power adapter that olues into an outlet and the back of the N64. Unlike most AC adapters, however, the unit that comes with the N64 places the

heavy converter unit on the Control Deck end so you don't have a heavy box hanging oil your outlet. (So why inntof the V-Al St Locusedel of sp person Shelj sc spiles

Translation: "
"The game has changed: N64 makes the difference

The Nintendo B4 had a blockbuster opening week, ringing op up more than 200 million dolars in sales for the game system and software. In comparison, top Hollywood hits only manage to cash in on about 20 million dollars in the opening week.

Feast your eyes on the Japanese packaging for Piletwings 64 and Super Marie 64. The hours are surprisingly large, about the size of a video tape linx, even though the Gamo Paks are not much larger than a Super NES Pak.

converter incorporated inside the Control Deck itself? According to Nintendo's engineers, the exterior AC adapter makes more sense in case repair is needed.) Next out of the box the standard grey controller with in revolutionary analog Control Stick. Finally, new owners received an instruction manual. Since no game was packed in, owners would have been wise to snag one of the three games that shipped along with the Control Deck

THE SOFT SELL

The N64 may have sleek lines and more power than a Pentium, but it's just a nice decoration unless you put a Game Pak in it. What really sells the system is e software, and Mario is the best salesman any video game system has wer had. Nintendo's advertising campaign preceding the land of the votem focused on Super Mario 64 rather than on the N64, in fact, June 23rd was touted as the launch of Super Mario 44 rather than the Nintendo 64. In addition to the ads on TV and in print, Japanese consumers had a chance to test drive Super Mario 64 for several weeks prior to the launch at retail outlets. The result was predictable enough. If they played it, they wanted it. "It's amazing...the movement is really smooth," said Yosuki Shimizu, a 19-year old computer graphics student waiting in line. Super Mario 64 may have driven players to lay down their money early or stand in lines, but Pilotwings 64 flew off the shelves as well. The third game, Shogi, was a Japanese chess game endorsed by Habi Meijin-the Ken Griffey Jr. of shogi. Some sources estimate that virtually every N64 buyer purchased a copy of Super Mario 64, six out of ten buyers also took home a copy of Pilotwings 6 and one out of ten nurchased Short.

NORTH AMERICA WAITS

If you can't wait until September, the Japanese Nintendo 64 can be yours for a mere 25,000 Yen, plus another couple of grand (U.S. dollars) for an airplane ticket to Tokyo. Believe it or not, we know some people who made the trip. At this very moment, they are playing Super Mario 64 and wonwring what the heck Mario is saying in the text boxes. There's just one problem. The Japanese N64 decks won't work with Game Paks made for North American distribution. Maybe it's better to wait for the North American Nintendo 64s to arrive, September 30th is almost here.

Day One: Tokyo

The faithful lined up in the streets of Akihabara, the electronics district in Tokyo, to p.ck up their Nintendo 64s, Inside stores like LAOX, gamers found stacks of the most anticipated game system in the world.

G0000000000AL! Strike up some stunning soccer action with FIFA Soccer '97, a password backed, one-player sports Pak from T-HO. This soccer sequel seriously kicks, with all the cool features

and options
that made
FIFA '96 a
portable hit
with soccer
fans around
the globe.

STRIKE THREE IS DEFINITELY A HIGH HARD ONE IN TH-O'S REAZING SEQUEL TO THOSE TWO COPTER CLASSICS, DESERT STRIKE AND URBAN STRIKE, THE ACTION NEVER LETS UP AS YOU MARAUD THROUGH SEVEN MISSIONS TO STOP A MEGALOMANIAC MEDIA MOGUL BENT ON

SEIZING POWER BY ANY MEANS NECESSARY.

STRI

SEQUEL TO JUNGLE STRIKE

Down in Hawaii for a bit of R&R, you're quickly called into action by superiors at Strike C.O.R.E. who have learned that mysterious H.R. Malone is readying a super-secret weapon. Having failed as a presidential candidate, Malone has spent billions to train and equip private armies throughout the United States. The fate of a nation bangs in the balance as you and your crack co-pilets swing into action!

©1994 Electronic A

When choosing your copter comrade, consider three qualities: how fast they shoot, how accurately they shoot, and how skilled they are at picking up people and items with a winch. A few of these hotshots are missing in action until the game's later missions. You can't change a copilot in mid-mission, so choose carefully!

The new guy on the block hails from

Aye, matey, this Aussie is a crackerjack winch-master who would love to throw a couple of baddles on the barble.

Angered by Malone's assassination of an old buddy of yours, you're more than eager to jump into the cockpit once more. Strike C.O.R.E. intelligence reports that Malone's tropical troublemakers have swiped three 30-foot telescope mirrors from observatories. To find out why, you'll have to lay waste to the lush landscape, then rescue a plastic surgeon who's been wielding his scalpel in very strange ways?

Malone's minions would love to greet you with "Aloha and good-byel" Give them the cold sheulder with a kandful of het missiles.

STEALTH SHIPS

Several well-placed reckets should send these jet-black beauties to Davy Jones's locker.

TELESCOPE MIRRORS \(\)

Blast the trucks carrying glassy loet. After winching up a mirrer, haul it across the bay to the dropoff point. You'll have to grab two of the three mirrors.

PLASTIC SURGEON

Confined to a tent, Malone's dermis doc is no happy camper. Pull up the stakes with some wellplaced shots, then drap a ladder and had up the scalpel specialist.

GREEN BERETS

You'll have to pick up and drop a swart

then farry the green personness. Low on fuel?
Fill 'er up near the base after making a drow-off.

ENEMY BRIDGE

Cut off the enemy base's marke by blewing a series of petholes in this bridge over the bay. If you're ruaning low on extraor, you can find mere supplies near year base or en an istand in the bey.

Pinpoint precision is the hallmark of this ex-freedom fighter from Central America.

Proudly sporting the colors of the Union

colors of the Union Jack, this brash Brit loves to shoot the lights out.

Malone has brought a crack team of out-of-work engineers to an abandoned auto factory in Mexico for the express purpose of designing prototype Ground Assault Vehicles (GAV). He has protection, too, in the form of Strike C.O.R.E. members held hostage nearby. You'll have to commandeer one of the GAVs to finish the land portion of this mission, then head to two offshore drilling platform for more fun and maybem.

Inaugurate your offshore adventures by destroying the radar stations on the driffing platforms.

Tell your copilot to keep that trigger until the gums are gutted

Make a quick mission of mercy, rescuing . civilians from a sinking cruise shio.

Deep-six Malone's nascent plans for a nasty navy by destroying this destroyer.

The Cold War is over, so ferry supplies to a Russian sub, then burry back to the war party on the platform.

Now that you've scuttled Malone's navy, it's time to clip the wings of his air ferce.

Land your halicopter and contin-ue on foot, blasting away at the offshore arsenal.

Your success so far has royally annoyed Malone. Retreating to the desert, he's seized Las Vegas, turning the erstwhile fun town into an arsenal of despotism. Ante up your own armory and enter this neon-lit nightmare, where every poker-faced rebel would love to call your bluff and convince you to eash in your chips permanently!

Take out this vehicle, grab an enemy com-mander, and persuade him to reveal the location of Malone's radar towers.

Don't fret. This giant guitar conceals a radar tower. De-string it with a couple of rockets. Viva Las Vegas!

Eliminate the local traffic problem by detonating the regues' read blocks. Talk about a speed

Your rockets will do a dandy job of turning the famous Vegas Strip into a weapans-free zone.

Pull the plug on the power grid. Without electricity for air-con-ditioning, Vegas is a ghost town.

Call in all bets at Malone's casiso. Your swift actions will secure the gaming house for a ground assault.

BB ., |

Your lightning-fast desert strike forest Malone to seek refuse in his underground headquarters. If you think he's going to give up quietly, though, guess again. A bevy of anti-helicopter batteries, manned by the best marksmen outside Strike C.O.R.E., are on hand to give you a most unifiendly welcome. Not only must you catch the big kahuna himself, you have to defuse his dreaded super weapon, once and for all!

Thirteen anti-helicopter batteries protect Malone's fortress. Terminate these with extreme prejudice.

Demoralize the troops hunkared down in the barracks with a few well-placed missiles.

Make sure your co-pilot is a crack shot. An errant shot can destroy valuable fuel or ammo:

Turn out the lights on the laser control center. Now might be a good time to repair your armor.

Administer some serious firepower to the heavily fortified aser housing.

Blast Malone's headquarters to flush out the master of maybem

Try to capture Malone and you'll see what kind of tricks he has up his sinister sleeve!

The world isn't safe until you've sauffed out the rebels' giant laser.

You start each stage with three lives. If you lose your armor or run out of fuel, it's curtains for you, Run out of ammo and you're as good as Hence, you'll have to good as much time monitoring your vital statistics as poking holes in the scenery. In short, it takes cool calculations as well as red-hot firepower to thwart Malone's diabolical plans. Remember, the fate of freedom lovers everywhere lies in your hands!

DKC 2: DIDDY'S KONG QUEST

HOW DO I START A TWO-PLAYER GAME?

ou must have an empty file before you can start a two-player game. Select a vacant file and verify that both controllers are plugged into your Super NES, After selecting a file, you can access Two-Player Mode and alternate play between Diddy and Dixie, Some unlicensed controllers do not work with the game. Make sure you purchase controllers that have the Official Nintendo Seal of Quality on the box.

Since Two-Player Mode alternates between players, many gamers think they need only one controller to player the game. You need two.

You must have an empty file before you can start a two-player game. If you don't have one, select another file and erase the data.

offer to change the names of your characters. If you want to rename your time machine, you must return to the Computer inside the Keeper's Dome.

If you want to rename your time machine, find the Computer inside the Keeper's Dome

2

HOW DO I GET THE ELEMENTAL WEAPONS?

ou can't get the Elemental Weapons inside the Blue Pyramid in 12,000 B.C. or A.D. 600, but you can find them in the Forest Ruins in A.D.1000 after your Pendant is pow-

The Mammon Machine must charge the Pendant before you can select an Elemental Weapon.

ered-up. The Mammon Machine at the Zeal Palace in 12,000 B.C. powers up the Pendant. When you return to the Forest Ruins, the Pendant will lower the Pyramid's shields. Inside, you can

If you have your Pendant powered-up, return to the Blue Pyramid in the Forest Ruins in 1000 A.D.

choose between two chests, one with the Safe Helm and the other with the Swallow Sword The Safe Helm can be used by anyone, while the powerful Swallow Sword is strictly for Crono.

After entering the Pyramid, you must choose between the Safe Helm and the Swallow Sword.

EYE OF THE BEHOLDER

HOW DO I CURE POISON?

f you don't have an Antidote or the Neutral-Poison spell, you should be saving your game at least five times on every level of the maze. That way, you can use the Reset Button without sacrificing hours of game play. The Slow Poison spell delays the damage to the character, but it is not a cure. Neutral-Poison, a fourth level Cleric Spell, is the best remedy in the game.

If you don't have the Neutral-Poison snell or an Antidote, he sure to save your game often

Contrary to nonular belief, the Slow Poison snell only delays noison and is not a cure

WHERE DO I GET IRON RATIONS ON LEVEL 5?

our party's food supply will dwindle as your characters delve deeper into the Beholder's maze. That's why it's important to replenish

Your party can get hungry as they travel. Be sure to complete the Special Quest on Level 5.

Special Quest on Level 5. Collect all the rations you can find throughout the maze, then return the food to the alcove marked 'Pantry" near the Dwarf Camp, If you place at least five rations in the

Collect as many rations as possible and return them to the Pantry near the Dwarf Camp.

pantry, you'll pick up an experience point bonus and all the rations in the Pantry will transform into hearty Iron Rations. Gather up the Iron Rations and distribute them evenly among your characters.

If you place five rations in the Pantry, the food will be converted into nutritious Iron Rations.

WHAT IS THE SPECIAL OUEST ON LEVEL 6?

ispersed throughout the maze's sixth floor are Kenku creatures protecting their eggs. If you scour all the dark nooks and crannies in the entire level, you'll find ten Kenku eggs. Take the eggs back to the room with the sign that reads "Nest.' More than a few adventurers get this far in their quest, but don't complete the task because they make more than one pile of eggs in the room. Keep all your Kenku eggs in one basket-or at least

one big pile-and avoid this common pit-

fall. When you stack all ten Kenku eggs in a big pile inside the nest, a secret door opens and your party receives an experience point bonus. Explore the secret room and pick up the Chieftain Halberd, one of the best weapons available in the game.

Kenkus guard their eggs on Level 6, Your quest is to find all ten eggs and return them to the nest.

Many players fail to complete the quest because they make two piles of eggs, not one

When you return all ten eggs to the nest and make one pile, you If find the Chieftain Halberd.

KIRBY'S DREAM LAND 2

HOW DO I GET THE RAINBOW DROP IN STAGE 4-4?

ou need to have Kine the Fish and the Burning Special Power to reach this Rainbow Drop, After you defeat the Fireball mini-guardian. exit his room and follow the path until

After defeating the Fireball mini-guardian, jump down this hole and burn away the blocks of ice.

you see a hole in the floor, Jump down the hole and use your Burning Special Power to melt the ice blocks. Drop into the water and sink down to a block that obstructs your path. The trick here is to

Dump your Special Power, remove the block, then hurry and nab your Special Power again.

dump your Special Power, remove the block and retrieve your Special Power again before it floats away. Use Kine and repeat this technique when you see the Rainbow Drop in the next room.

Like Kirby, Kine the Fish can inhale items and enemies, but only when swimming underwater.

WHERE IS THE RANDOM PERCENTAGE POINT?

he Girl blob is the random percentage point. If you return to a stage and free a helper (Rick, Coo or Kine), a blob character will appear Usually, it's a blob that refills some of your life, but sometimes a Girl blob is waiting for you. Level 5-3 is the best place to find the Girl blob. Rescue one of your friends, exit the stage, then reenter it again. Within ten tries, you should find the Girl blob.

If you free a captured helper, a blob character will appear Sometimes, the Girl blob takes the place of other blobs. You must rescue the Girl blob to score a perfect 100%.

The best place to find the Girl blob is in Level 5-3. Keep returning to the stage and freeing the regular blobs until the Girl blob appears, then you can pick up the random percentage point.

- There's only one ending, but if you finish the game without losing a life. Marin will fly around the screen instead of the seagull after you see the end credits

THE INCREDIBLE SHRINKING

NEW GAME BOY POCKET!

MORE FUN THAN EVER!

Colored WA. Sintento has made one of the boldest striemiliar altramements in video game history—the creating of Game Boy Pocket! Sintentio engineers successfully, reduced the size of the Game Boy by 30% and cut its weight in half, small ensugh to fit in the palm of your hands. Game Boy Pocket ligings a fresh look and even more pictability to the hand-held gaming market. Along with its sleeker lines. The new matte silver bright and understated grey burnars and a suphisticated high-tech edge to an already winning disignt its keeping with the focus on things small, Came Boy Pocket uperates of two AAA size batteries, for approximately 10 hours of personal-sized game plas.

VIVID IMAGES

Another of the Game Boy Pocket's innovations is a new black-and-while liquid crystal (LCD) display that provides sharper, clearer images. Despite the fact that the new unit is much smaller and thinner than its predecessor, recent advancements in LCD technology have allowed the screen dimensions to remain the same. Now more people can join in the Game Boy fun at the same time!

NEW OPPORTUNITIES

At a time when the video game media's focus is on "next generation" hardware and software, some may wonder why Nintendo is releasing a new style of Game Boy system. In fact, the Game Boy is still an incredibly competitive product, accounting for the great majority of the hand-held earning market; and Nintendo

feels that there is room for more growth. Over one million "Play it Loud" Game Boy units alone were sold last year, and this is particularly amazing in a marketplace where anything over six months old is often considered yesterday's news. As Peter Main, Nintendo of America's executive vice president of sales and marketing, said in a recent press release, "Game Boy Pocket is (yet) another exciting reason to get into Game Boy's great gaming and portable fun!"

PORTABILITY AND COMPATIBILITY

Loyal Game Boy fans will also be happy to learn that Game Boy Pocket is compatible with the entire library of more than 430 Game Boy games. And with recent hits like Tetris Blast and Kirby's Block Ball already available, and blockbusters like Donkey Kong Land 2 and Tetris Attack soon to hit store shelves, players will have more options for on-the-go gaming fun than ever before!

OCKET QS:

The Game Boy Pocket is appreximately 4.5" by 3", compared to the original Game Boy's 5" by 3". How many Game Boy Pocket's (atanding us) would it take to reach the tep of the Sears Tower?

a. A google of them b. 3877 c. 2908

AMAZING TECHNOLOGICAL BREAKTHROUGHS!

There have been startling advances in computer design and manufacture in the years since the original Game Boy's release (especially in the areas of miniaturization), and Nintendo engineers have taken ample advantage of them to create Game Boy Pocket. Game Boy Pocket is usually cited as being about 30% smaller than the original, but this is only taking the area (height x width) into account. When you calculate the volume (height x width x depth) of the new unit, it's about half the size of its predecessor! At the same time, Game Boy Pocket gives up nothing in performance.

portable package.

MARKET SHIP HANGE BUT THE PARTY OF THE PARTY Despite its smaller dimensions. Game Boy Pocket sports the same size screen (about 2.6 square inches) as its older sibling. Screen resolution also remains the same at 160 x 144 lines, but advances in LCD technology give the Game Boy Pocket screen even better contrast. In LCD screens, a thin layer of liquid crystal is suspended between two plates, usually glass. When an electric current is introduced into the crystal, the electrified area turns dark. Game Boy software includes instructions on which

areas of the screen to electrify at any given moment, creating the game's

graphics. Engineers have found a way to increase the contrast between the dark

and light areas, allowing for sharper,

clearer images, especially when viewed at an angle. While you probably won't notice much difference looking at the screen head-on, anyone peering in from the side will have a much easier time seeing your playing prowess!

As a consequence of its smaller format and different power usage, some of the Game Boy Pocket's accessories will be unique to the new unit. While the head-

phone socket accepts a different size jack than the original Game Boy's, you'll get the same rich, four-channel stereo sound. Game Boy Pocket's Game Link and AC adapter will also differ from those made for the classic model, but no matter which flavor of Game Boy you choose, you'll be getting the tastiest portable game system around!

GAME BOY POCKET EXTRA

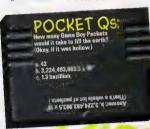

GAME BOY RANKS

POCKET

GAME BOY OVERTAKES BASEBALL AS AMERICA'S FAVORITE PASTIMEIII

Whether they're out at the ballpark, sitting in the dugout or stuck in traffic after the final out. Game Boy fans can play ball at any time. The 19 million Game Boy owners in North America know the value of reliability. Game Boy is never in a slump. It never balks, it always delivers the hits and, although it can't sign an autograph for you, it will stick around and play ball for as long as you want after the other All-Stars have left the park. And with Game Boy and Game Boy Pocket. you always sit in the owner's box. Is there any doubt that Game Boy Pocket will carry on the winning tradition? At a \$59.95 suggested manufacturer's price. Game Boy Pocket will steal home every chance it gets. Not even the Bigs can guarantee that kind of excitement.

GAME BOY POCKET RAMPAGES THROUGH STORES SEPTEMBER 3RD!

GAMERS GET SMALL.

Winelest and bigger is senter netice to carry it around an inspecie. Try stuffing a saint Bernard in there if you don't befieve in grad lack. Smaller is cooler smaller fits anywhere it fill in your land, in your pocket, in a bag, it its in your lifestyle, no matter what you do no where you ge. The smaller the better, Came Bob Pocket's if the smallest lideo game visites around Evro big piece in small, and that makes it smart small and small diarbe you never shought that you'd want to get small, but if it has said that fits, it's the size of the native, and with Came Go Pocket, it's he size of today.

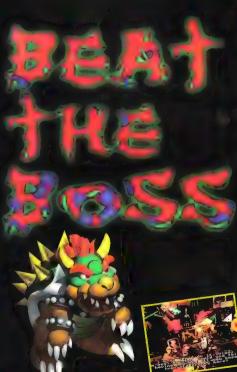

IT'S BAAAAAACK, READ ON

AND MAKE A MENTAL NOTE OR TWO BECAUSE THIS MIGHT BE THE LAST TIME WE SHOW YOU THE SECRET TO...

monkeying around with k. Rool

K. Rool has three strategies for defeating. Dixic and Diddy. In each case he shoots at you and, if you dodge the flying projectiles, you'll find a cannonhall. If you toss the cannonhall into the gun as it tries to suck you up, it will backfire. Do this nine times and you'll win the game.

K. Rool begins the battle shooting an ordinary cannonball. Pick it up, jump over the croc, then toss the cananaball down the barrel of his gun.

Leter K. Rool changes his ammo. If you can avoid the spiked cannonball, it will lose its sharp points and you can throw it back into the gun.

After the gua backfires three times, K. Rool collapses in the corner and Donkey appears suspended on a rope. Looks like—hey! K. Rool is movime!

Now the battle gets tough. Avoid the spiked halls and break the barrel open. Inside you if find a cannonball to toss back at K. Roofs

When K. Rool turns invisible you can see where he's hiding by watching the dust on the floor. Keep throwing cannonballs and you'll win the game.

SHIS STAND

BEDTIME FOR BABY BOWSER

It was just another spoiled rotten day for little Bowser until Baby Mario and Yoshi dropped in. Now Bowsie wants a ride on Yoshi. Pound the floor around Taby Bowser until he gets flustered. Then grab a couple of eggs and hang on Bowsie has a new game he wants to play with nou.

Jump in the air. then press Down on the Control Pad before you hit the floor. As you hit the ground, a rip-ple will run across the nursery tiles.

A RA DEAL ON ABYDOS

Ra can be defeated with 18 alien grenades or 30 regular grenades and a machine gun, but there's a big secret to making this fight very easy: at any point in the battle replenish your you can weapons and essentials by jumping down to the bottom of the screen and walking off the right side, When you're ready, jump up and resume the fight.

Stand against the wall, If Ra teleports to the platform, shoot him with a grenade and lure him up close to you. Now roll a grenade beneath his feet.

Kamek's spell teleports you out onto the battlements on Bowser's Castle. That's no mountain in the distance. Jump quickly to avoid Bowser's fireballs.

If Ra launches a red fireball in your direction, shoot at the inbound cinders with your machine gun until the flames disinte-

Return fire with an ego or two, then jump to avoid Bowser's coun terattacks. You need to nail Bowser with seven direct hits to rescue Baby Luigi.

Don't forget about the secret room. If things start to get rough, retreat to the room in the lower carner of the screen and replenish your supplies.

Bowser might be as easy target after he moves in close, but so are you. The key to vic-tory is to finish Bowser off before he draws too near.

There is no way to avoid the sting of Ra's whip, Use your grenades and machine gun until Daniel calls on the radio and orders you out of the tower.

MAR DIE GRADE AND PLACED

beat the boss

Punctuou []

know the tricks of the chumps...er. Champs

It's easy to be the Champ if you know the countermoves to all three circuit champions in Super Punch-Out!! Nick up the key tips and tactics below each of the photos. If you finish all three circuits with an undetested record, you'll be invited to challenge the Special Circuit.

The Minor Circuit's Bald Bull has two types of bouncing charges. The trick is to catch him with a Left Body Blow on the last step of his charge.

Mr. Sandman changes his attack pattern after you've knocked him down twice. Wait for his Hook, then Dodge three times and come out punching.

When Super Mache man hears the yell, "Exercise Program A!" he Urraws five head shots. Block high five times then counter punch with a low punch.

Super Macho man throws three quick body blows when he hears the command, "Exercise Program B!" Block low until he rests, then aim for his head.

"Exercise Program C!" is Macho man's cue to crouch and unload three uppercuts. Dodge three times then unload a ffurry of punches in his face.

LINAR LUNACY

Fuwa-Fuwa lebed, the last stage of Super Adventure Island II, is comprised of three tough guardians. You must have all five spells in the game before you can land here. After you defeat the Dark Cloak, you'll be warped to the dreary surface of the Moon where you'll face the final enemy.

Use the Power Sword to destroy the Evil Engle's five rotten eggs, then crouch down and use the Fireballs to burn the fearsome fowl from the skies.

After you defeat Evil Eagle you receive the Sky Bell. Ring the belf while standing on the padestal in the room above the Eagle's chamher.

The Sky Bell cairs the Dark Cleak. Swing the Power Sword until the monster soars into the air. Shred the cleak than use the Up-Juo to times the flying frend.

It takes 65 to 70 Power Sword hits to ground the flying insect. Jumpup and hit the cootie's claws, then make tracks to avoid the fireballs.

When the insect is finally grounded on the lunar serface, stand on the right side of him and swing continually with the Power Sword. The fight is over after 35 blews.

Musicialu

THE GOOD, THE YLAD AND THE VIGLY

Vlad is the final foe in Nosferatu, Your kick attacks work best. If you are litted off the ground, break free by pressing the Y Button and tapping Left and Right on the Control Pad. Finally, if you ever study abroad, think twice about that Transylvania assignment.

Move left or right of Vlad as he approaches along the ground, than open your attack with a Jump Kick and follow through with a series of numeries.

sticks and stones...

...might break your bones, but Shao Kahn's taunts can never hurt you. We used Stryker as an example in the photos below, but the tactics outlined here will work with any kombatant.

If you're lifted off the ground, held the Y Button and tap Left and Right on the Control Pad te break leose from Vlad's telekimatic grip.

If Shao Kahn comes bouncing in, try to nail him with an uppercut or a combanything that knocks him into the air and makes him an easier target.

Net only de Jump Kicks inflict mera damage than punches, but you have a better chance of avoiding the brute force of the vampire's counterattacks.

Kahn has a tough time defending against projectile attacks. Bomb, throw or shoot as many as you can at him before he can launch a counterstrike.

When Visid attacks as a Bat, stay out of the corners and use punches and kicks as he swoops down at you.

If you keep throwing projectiles at a rapid pace and Kahn won't be able to block them.

Dracula)

the day drag saw his shadow

Like all six preceding Castlevania games, Dracula is the final enemy in Dracula & aithough some players would argue that this Count is the toughest of them all. Try to conserve your Axe power until Dracula chances into his second sinister form.

Dracula is vulnerable to damage when his cape is open. Aim for his head when he epens it.

If you don't have a clear shot at the Count, jump over or duck his fireballs and wait him out,

Keep your distance as you fight Dracula's second form. Use your Axe until you run out of Hearts.

KILLER INSTINCT

Adam Pritchard of Bennett, North Carolina, made it all the way to the end of Killer Instinct on the toughest difficulty mode without using a single Continue! How do we know? He sent a rockin' photo of his accomplishment (with the Super NES in the photo, of course!) Are you good enough to play at Adam's level? Send your picture of the end screen showing the number of Continues used to the Arena. The top twenty-five fighters can hold their heads high and score four Power Stamps.

CHRONO TRIGGER

While Nintendo Power contest winner

Matthew Werner was kicking back with

the Power staff at E3 in Los Angeles, we

asked him if he had any ideas for an

Arena Challenge, "How about the best

time on the Speeder bikes in Chrono

Trigger?," he suggested. Sounds cool to

us. The twenty-five Race Logs with the

most points win four Power Stamps.

Send in a photo of your Race Log. If you

don't know where to find the Race Log.

check out page 83 in this month's

CHALLENGE #2

YOSHI'S ISLAND

Here's the challenge everyone has been asking for! Since we started the Yoshi's Island challenge series, we've asked players to send in their 100% scores for specific worlds. Some of you have sent in photos of all six worlds! Don't send in six photos! If you've completed all six worlds at 100%, you'll see six gold stars at the top of the title screen. The first fifty players sending photos of the six gold stars on the title screen will win four Power Stamps.

READER CHALLENGES

Tons of Twisted Challenges are arriving in the mail, but we wanted to give credit to these dedicated gamers who sent in some cool challenges before the announcement in Volume 85. Read on to see how you measure up against other Nintendo Power readers. These player challenges are strictly for fun and no prizes will be awarded.

- In NHL '96, how many points can the 5t. Louis Blues score against the Winnipeg Jets in three, ten-minute periods' Joe Freeman, St. Peters, MO (Joe had 26 unanswered points.)
- In Super Metriod, can you defeat Spore Spawn without getting hit once? Jimmy Shea, New Freedom, PA
- •Try finishing Mega Man X with the following password: 5317 4358 2746 Ryan Perseghin, Baltimore, MD
- In NBA Jam, can you use the Orlando Magic and beat the Miami Heat by more than 186 points? Jonathan Smith, Tyler, TX

Write your name, address and Member Number on the back of your photo. Challenges in this issue must be received no later than September 10, 1996. The top qualifiers receive Super Power

Stamps. Include your Super NES in the photo of your high score. Dim the lights and then take a few photos without a flash. If you're taking a photo of a Game Boy, place it on a flat surface.

Address entries to: POWER PLAYERS' ARENA P.O. BOX 97033 REDMOND, WA 98073-9733

BATTLEZONE/SUPER BREAKOUT

CompanyBlack Pearl Release DateAugust 1996 Memory Size Megabits

Two blasts from the past explode onto Game Boy and Super Game Boy.

Some of the best video game action was taking place more than a decade ago in the arcades. Now, two examples of that quality have been put together in one Game Boy Game Pak from Black Pearl. Atari's original Battlezone made a

splash back in the early 80's with its 3-D, vector-drawn graphics and freedom of motion. The game is a basic tank hunt-and-

destroy mission, but it uses many of the standard features that you find on 3-D shooters today, including a targeting radar. Super Breakout, also from Atari, falls into the category of classic, action-puzzle games. You must keep the bouncing ball in play by hitting

it with a paddle. Your goal is to take out the blocks. Both Battlezone and Super Breakout make the transition from arcade to Game Boy like champions. Arcade fans won't want to miss this duo.

A nice combo of games, Fun. Good play control.

Simple graphics, Simple sound, Confusing Select Screen.

MR. DO!

CompanyBlack Pearl Release DateAugust 1996 Memory Size4 Megabits

Classic arcade action from ancient times comes to the Super NES.

Mr. Do! has been clowning around in Japan on the Super Famicom for a while.

but now he's ready to come back home to North America thanks to Black Pearl. The classic, Universal arcade game will be released for the Super NES this month, and it looks pretty much the same as it did in the arcade. Based on the tried-andtrue munch-and-move concept pioneered by Pac Man, Mr. Do! adds extra thrills by featuring a variety of baddies, useful items.

and dozens of stages. If you want to revisit your gaming roots. Mr. Do! can help take you there, and the anticipated low price of this 4 megabit game should be just the ticket.

Engaging and fun. Good play mode options.

Simple graphics compared to more sophisticated current games.

Movie madness strikes a weird critter from France. No, not Jerry Lewis. It's Oscar.

Hollywood gets sent down for the millionth time in this platform game from Titus, Oscar, the star, is a little rodent of indeterminate species who hops and boos his way through scenes of a prehistoric movie, a horror flick, a western and a cartoon. His main purpose is to scamper

through each stage, collecting little statues of himself, which are called Oscars. It's cute, but the action can get frantic and some of the Oscars can be tougher to find than a humble hero in Hollywood. The difficult bit is reaching the Oscars, Endless enemies patrol the vertical and horizontal areas, returning to life after short periods even after they've been stomped. These

Oscars will be handed out in September, but you can check out the action and vote for vourself in this month's review.

Good graphics. Cute, but with some challenge.

Touchy play control and hit detection.

TETRIS ATTACK CompanyNintendo Release DateAugust 1996

The tradition of Tetris is reborn with Tetris Attack

One of the best action-puzzle games ever for the Super NES. Tetris Attack looks deceptively simple, but requires planning,

Memory Size 8 Megabits

quickness and execution. In the regular game, one or two players manipulate pairs of blocks by moving or switching them from one position to another. When three blocks or more of the same type are lined up, they are eliminated from the screen and the blocks above them fall down. In the two-player variation, head-to-head opponents add bars to the opponent's screen by scoring combinations of four or more blocks. Once you get your hands on Tetris Attack, you'll never want to let go, honestly. Power digs into the strategies of Tetris Attack in this month's review.

Very involving. Excellent two-player action.

It may take over your life.

THE WEIGHT SOURCE ON FOUR CAMES

BLAST CORPS

ith the passing of the Cold War, many people think that a nuclear nightmare is no longer a possibility. Not the programmers at Rare, though, They look forward to a very roxy future, indeed: missile carriers wandering loose over the countryside, radiation leaking everywhere, and the whole mess threatening to go nuclear if it hits a speed bump. The game element in this apocalyptic scenario is that you get to clear the path in front of the missile carrier so that no one ends up glowing like a neon seatherer's something very satisfying about knocking, down builtings, but the real thrill counse from the sense of the carrier so that the carrier so that no one ends up glowing like a neon seatherer's something very satisfying about knocking, down builtings, but the real thrill counse from the sense of the carrier so that no carrier so that no one ends up glowing like a neon seatherer's something very satisfying about knocking down builtings, but the real thrill counse from the sense of the carrier so that no carrier so that no one ends up glowing like a neon seatherer.

tryside, the missile carrier leeps moving closes to you. As the development of Blast Corps rolls on toward its smashing debut the excitement and terror; builds, as well. (More excitement that terror, of course.) The most recent version of the game receives at Pak Watch included most of the main versicles and indeed stages. The shots shown previously.

Power were taken from the Alian 10.3.

Some of the

REAL

I shouting, jumping, tons of weapon power-upand never-ending action get your controlthumb ticking, then Realm from Tibus will seem like heaven. It also seems like one of the old Contra games for the NES-a side-scrolling, blaster with seemingly no end in sight. The hereo of Realm is a futuristic warrior who grabs new weapons wherever he can find thom and fills up his fift meter at every chance. Although

the graphics look like Euro-toons, don't let them fool you. The

action-crazed programmers from across the Atlantic don't

the development of Realm almost two years ago, but even if it's

much to chew on for the last six months. Titus hopes to release this Super NES game to the public is the superior of the super

emco's Top Gear Rally for the Nintendo 64 may be almost a year away from release, but it's never too early to start peeking at the progress. The shots received at Pak Watch show images from the Alias demo that Kemco presented to Nintendo prior to approval of the game concept. At this stage, the animation is more of a blueprint and a goal for the game, but it showcases the 3-D skills of the development team at Boss Games here in Redmond. The presentation video featured cars racing through the night with their jouncing headlights illuminating the road ahead. The realism was nothing short of spectacular. According to project leader, Seth Mendelssohn, at Boss, the game will feature exacting physics models in the simulation mode and just a

lot of fast fun in the arcade mode. If Kemco and Boss Games follow up on the potential of Rally, the future of gaming will be shifting into top gear.

ULTIMATE MORTAL KOMBAT

east your orbs on the first Super NES shots of Ultimate Mortal Kombat 3 from Williams Entertainment. The fourth MK game in as many years also packs in the most

action and the best graphics, it may not blow away the arcade game, like Mortal Kombat Trilogy for the N64, but it does a good juit of challenging the quarter-muncher at every turn. The characters and two-player action are here, plus the Kodes,

fatalities, babalities and other trademarked moves that keep the MK games fresh for millions of fans. As you can see in the screen shots received from Williams, the game also contains the new backgrounds from the desert, underworld and vortex. This should be one of the hottest 16-bit tiffer of the year.

144

e've waited a long time for Whizz and Titus finally satisfied that this unusual action game is ready for release. Whizz combines triedand-true platform game play in a three-quarter perspective similar to Super Mario RPC. The

unlikely hero is a white rabbit wearing a hat and two do who looks like he just scampered out of Wonderland. Whizz must hop and spin his way through mazes filled with traps and

enemies. Each stage

has limited time and a number of obstacles that must be overcome by activating switches. You'll have to be quick and look for bonus time items and mushroom healing potions to keep Whizz in the race. The four worlds include the South Sea Beaches, Arctic Wastes, Green Grass Castle and Gamesville. Whizz may look cute and fuzzy on the outside, but the developers at Flair have proven once again that they know how to give you a good challenge. Playing Whizz on the Hard setting

Killer Instinct® for N64™. Incredible moves, killer speed, powerful fun. It doesn't get any tougher.

N64™. The fun machine. It will take you beyond belief. Inside the games. Over the edge.

Get focused on fun. Be the first to get the Nintendo 64° in your hands. Coming this fall.

Our goal is to try and preserve classic videogame magazines from years gone by before they are lost forever.

Thanks goes out to all the people who make this possible.

From the original editors and writers,
to everyone involved in acquiring and digitizing these magazines.

People interested in helping us out, in whatever way possible.

Either by donating classic magazines, scanning, editing or distributing them,
visit us at http://www.retromags.com

We are only interested in preserving classic magazines that are at least 5 years out of print.

We have no desire or intention to profit from these in any way.

So please, if you come across people trying to sell these releases, don't support them!

Thank You and ENJOY!
